The "Brocks"

Here In Four Days' Meeting.

Mr. and Mrs. Brock arrived Monday from Galena and held their first service at the Christian church that night. They can be in Baxter only four days as they are to leave Friday for Memphis, Tenn., where they are to be engaged in a big revival campaign. These people have just closed a very successful revival at Galena and have come to Baxter to spend their rest days and give the people of our town the benefit of their music and preaching while here. There has been a good attendance so evangelists are strangers, and For Garden Plants, House Rlants, there being but slight advertisfar considering the fact that the ing done.

Some vandal, who, by the way. wears about a No. 8 shoe, went into the flower bed at the home of Frank M. Perkins on Monday night of this week and took an awful lot of fine tulips. It was the work of a cur. Mr. Perkins is very liberal with his flowers, always, and gives many of them to those who admire them, and it is very discouraging to have them stolen.

It is Good-Bye.

To my numerous friends and patrons I must say good-bye. And it is with genuine regret and heartaches that I do so. I feel that there is not a man, woman or child in Baxter or the surrounding country who is not my warm personal friend. I took hold of the News when it was not the best paper in the country, by any means, and built it up to one of the best papers for a town the size of Baxter, that can be found in any community. woman or child in Baxter or the can be found in any community. But of course I did not do it alone. My friends helped me do it. I was loyal to my friends, and my friends were loyal to me. I have shared their joys and sorrows, and they have shared mine. I have done the town of Baxany good, then my work was not in vain. I hope and believe I have done my part toward the uplift and material advancement of the town

Save a Little

No matter how careful you may be, all the money that passes through your hands will not "stick to your fingers."

But really that is no reason why some of it should not stick. And here is a very good pointer about the money you do save. It is worth taking care of; by put-ting it in a good bank like ours it is safe until you do need it. No matter how small the saving at the start you will take pride in seeing the account grow, once started.
